SUMMARY

Adaptable Computer Science student skilled in Java, Python, web development, and core CS concepts like DSA, DBMS, and AI/ML, with hands-on project experience and a strong drive to learn and contribute to real-world challenges.

EDUCATION

SDM College of Engineering and Technology, Dharwad Bachelor of Engineering in Computer Science and Engineering	2022 – Present
Vishwajyothi PU College, Siruguppa, Bellary Pre-University Education (PCMB)	2020 – 2022
Vishwajyothi International Public School, Siruguppa, Bellary Secondary Education (ICSE)	2008 – 2020

SKILLS

- **Programming Languages:** Java, Python, Kotlin, Go, C
- **Web Development:** HTML, CSS, JavaScript, React, MongoDB
- **Frameworks & Tools:** Git/GitHub, Jira, Cisco Packet Tracer, VS Code
- **Core Concepts:** OOP, Data Structures & Algorithms, DBMS, AI/ML, Data Science, IoT, Computer Networks

PROJECTS

Blockchain-Based Decentralized Voting System

- Built a blockchain-based voting system using Truffle, Ganache, MetaMask, and Ethereum smart contracts, implementing unique cryptographic voter identities.
- Boosted data integrity and tamper resistance by 90% through decentralized ledger architecture.

Resume Analyzer using NLP

- Built an AI-powered resume analyzer using NLP to extract, evaluate, and score candidate resumes based on skills, keywords, and job relevance.
- Implemented text preprocessing and semantic matching to deliver accurate, automated candidate insights.

Fake Pop-up Detection System using Neural Networks

- Built a neural-network-powered desktop app using Python, OpenCV, TensorFlow/Keras, and Tkinter to detect fake pop-ups and QR codes with ~90% classification accuracy, enabling real-time warnings and improved user safety.

WORK EXPERIENCE — FREELANCE

Full Stack & AI/ML Developer — Freelance (Confidential Client)

- Worked on real-time projects, including research on building an OCR model and contributing as a member of the development team.

Mobile App Developer — Rakshak

- Developed Rakshak, a fully functional cross-platform app for iOS and Android, focusing on real-time features, user safety workflows, and smooth UI/UX performance.

CERTIFICATIONS

- Software Design and Development: Object-Oriented Analysis and Design — Infosys Springboard
- Introduction to MongoDB — Infosys Springboard
- HTML Language Certification — Infosys Springboard
- Agamy Cyber Tech Summit — Hackathon Participation (2nd Prize)

ADDITIONAL INFORMATION

Interests: Musical instruments, Singing, Reading books

Extracurricular Activities:

- Volunteer at Insignia (Inter-college Cultural Fest) and National Level South Zone Women's Badminton Tournament, and other college events.
- Volunteered to guide students preparing for competitive exams like NMMS through teaching and problem-solving; coordinated with the Forest Department for a tree-planting initiative on campus.
- Founder & Coordinator, Anonymous Cybersecurity Club, SDMCET — organized events and hands-on cybersecurity sessions for students.
